

DMK Ingredients products are made from high quality, German fresh milk. After being collected from our cooperative dairy farmers the milk is processed in state of the art production plants. Like this, we have full control of the origin of our milk, starting from the collection, and guarantee total traceability. Due to our specialized technologies and long term experience, our dairy ingredients are produced especially to meet your and our high standards and requirements. Of course, we are certified for modern food standards and fulfil special nutritional requirements like halal and kosher. Our aim is the ongoing optimization of our dairy-based ingredients and services in order to support you in the development of your products and innovations.

Professional Solutions for Applications **Beverages**

The rich and creamy consistency of milk products contributes to enhance the taste and major characteristics of various beverages – such as coffee, milkshakes and smoothies. Due to their optimal solubility and dispersibility, our broad range of dairy products offers you the best solution fulfilling your requirements.

A wide range of different product solutions for your application

Milk Powder (e.g. Agglomerated Skimmed Milk Powder and Instant Full Cream Milk Powder)

- Full and rich dairy flavour for a creamy mouthfeel
- Outstanding solubility and excellent dispersibility
- Source of functional dairy solids
- Vitaminized powders available

Condensed Milk (unsweetened and sweetened, optional with additional additives)

- Adds a special, lightly caramelized flavour profile
- Homogenized properties leverage the creamy and smooth consistency of milkshakes
- Long shelf life due to aseptic filling

Fresh Dairy (e.g. Cream Blend, Milkpermeat Blend)

- Ready to use ingredient compound
- Acid stable and emulsifying properties

Supply Chain

As part of one of the largest cooperative-based dairy companies in Europe, DMK Ingredients offers a wide range of different packaging systems: from buckets, butter- and cheese-blocks, 25 kg bags, big bags, palletcons to bulk loading-suitable to your needs. As a successful global exporting company we offer a high level of reliability and safety along the complete supply chain.
